Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the examiner has considered applicants' amendment filed November 22, 2004, and the remarks therein. In light of applicants' remarks, and an analysis of the reference submitted by applicants from the Journal of the American Chemical Society, the examiner concedes that a person of ordinary skill in the art would not have *reasonably* expected to be able to form the corresponding sulfoxonium ylide, if the phenyl ester reactant taught by Kronenthal et al were substituted with an alkyl ester, as is required in the present invention. Therefore, the examiner has withdrawn the rejections of record; the instant claims are now allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sikarl A. Witherspoon whose telephone number is 571-272-0649. The examiner can normally be reached on M-F 8:30-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Johann Richter can be reached on 571-272-0646. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
